

**NATIONAL ASSOCIATION OF WOMEN IN CONSTRUCTION**

**REPORT OF REGION 10  
BY TRACY REEVES, DIRECTOR**

**What a year so far!!! We, Marilyn Camin (Past Director) and myself, started off with an "Energizing Region 10" leadership training in Sparks, Nevada in August of 2006. Invitations were sent out to the local construction companies. We did get one new member for the Sparks Chapter. And we started the motivation of the Region.**

**September was Convention. We all know how busy we were there. It was great to network with my fellow directors and got lots of ideas.**

**I was invited to and attended the San Francisco Chapter meeting to assist with the installation of their officers for the 2006/2007 year. These ladies are well on their way to becoming a stronger chapter.**

**The Pinnacles chapter is moving steadily forward. They have implemented a calendar for 2006/2007 of items and speakers and are definitely enthusiastic.**

**I did visit with Delta Valley chapter at their main fund raiser -- a golf tournament. Considering I do not golf, I did not do too badly. What a fun event and was able to connect closer and more personal with this chapter.**

**My own chapter, Santa Clara, has consistently been there for me. What can I say!! They have been awesome and definitely a leader within this region.**

**APC -- WOW such team work all around. It was a great event with the Pinnacles and Santa Clara Chapters co-chairing. Starting with the outing on Friday, Yes, we did drive bobcats and got to ride on the bigger pieces of equipment. Officer training, motivational speakers, strategic planning and lots of networking and team building were what it was all about.**

**This director showed her appreciation by giving out bracelets to all attendees as a sign of team building at APC. Winter Conference, if you were there, you added a pair of earrings. Forum --- let's see????**

**My goal is to see how many can have at least one piece of jewelry by the end of my first year. Surprises for all the members, have fun, draw from the other team members and just truly energized!!!!**

**Sacramento and Santa Clara chapters both had CIT courses in January.**

Winter Conference, "Think Green", was on February 9 & 10, 2007. The Greater East Bay Chapter did an excellent job. The program included Keynote speaker Carole Rehbock of Consulting and Coaching Solutions, "The Cycle of Renewal" and Joel Micucci of Lora' Development on "Green Building". This region has not had a Winter Conference in a few *years*. BUT, we had 50 registered members!!! *I* love it!!!!

In February I visited the Monterey Chapter. Monterey will be hosting our 2008 Forum for us. These ladies are already making plans.

March was Mid year board.

Forum - planning with Santa Clara Chapter was truly a rewarding experience. As all saw over May 4, 5, and 6th, there was fun, education, mentoring, renewing friendships and making new ones. I would hope to see more partnering agreements with the local Builder Exchanges and our National partners on the local level.

August 11, 2007 will be Region 10's Summer Leadership Retreat.

On June 16, 2007 I will be looking and confirming a hotel for our Annual Planning Conference that will be scheduled sometime in October 2007.

When the stats for retention came out, I was truly ecstatic. National 77% AND Region 10 at 83%. You better believe Region 10 is doing a great job.

*My "dream" is to double the size of membership. But, only time will tell.*

Hope this informs you on the developments within this region.

Thanks to the many who have stepped up to the plate to make this Region what it is!

**WE ARE MOTIVATED - REGION 10 WILL AGAIN BE AWESOME!!!!**
