Dear Potential Donor, Volunteer, and friend of Girl Scouts,

Girl Scouts Heart of Central California is excited to offer Under Construction programs to introduce young women to the many careers available to them in the construction industry. These programs also help girls to develop their leadership and teamwork skills as wells as building self-esteem. This year we are excited to offer two programs: *Women in Construction* and *Under Construction at Camp Menzies*.

Our *Women in Construction* event is taking place at our main office in Rancho Cordova. Girls will have the opportunity to participate in hands-on activities such as building birdhouses and bookends and having a nail-off competition. Girls will also be able to visit informational booths about different careers and talk with women in the construction industry. Companies and organizations can sign up to have a booth at this event or to provide volunteers to help with hands-on building stations being set up by Girl Scout Heart of Central California's property department.

*Under Construction at Camp Menzies* will be taking place at Camp Menzies, the council's summer resident camp located in Calaveras County just east of Big Trees State Park. Girls participating in this program will be building a sleeping cabin in one of our camp's living units. Participants will learn about the process of building a cabin from the design stage to completion. We are looking for volunteers and guest speakers for this program.

In order to offer these programs to young women for free or reduced rates we rely on volunteer and donor support. We have several different sponsorship levels for organizations that wish to make a donation to the program. Companies and organizations can also make donations of the building materials and safety equipment needed for the programs.

More information on our sponsorship levels and how to sign up to participate in our events is included in the following pages. If you have questions please contact our main office at (916) 638-4475.

Sincerely,

Pam Saltenberger  
CEO
